MoP5-Doc16

Secretariat report on staff resources and secretariat activities

*Relates to agenda item: 10.1, 10.3*  Proposal ☐ Other Document ☑ Info Paper ☐

**SIOFA SECRETARIAT**

**Abstract**

In accordance with RoP Rule 8 f) and 8 g), this paper provides an annual report from the Secretariat on staffing and activities for the ordinary Meeting of the Parties.

This report covers the period between MoP4 (July 2017) to MoP5 (June 2018).
SECRETARIAT REPORT ON STAFF RESOURCES AND SECRETARIAT ACTIVITIES

In accordance with RoP Rule 8 f) and 8 g), this paper provides an annual report from the Secretariat on staffing and activities for the ordinary Meeting of the Parties.

This report covers the period between MoP4 (July 2017) to MoP5 (June 2018).

STAFF RESOURCES

Secretariat Staff

The Secretariat staff currently comprises of 1.5 full time staff consisting of 1 full time Executive Secretary post and a part-time Data Manager post.

The Executive Secretary’s contract commenced on the 17th October and expires on 16th October 2020 and will be eligible for reappointment for no more than one further four-year term, subject to the agreement of the Meeting of the Parties.

The Data Manager post commenced 15 January 2018. The post is 50% of a full-time post. The term is for two years with the possibility of renewal.

Recruitment process of the Data/IT Manager

MoP4 agreed that the recruitment of a Data/IT Manager should be progressed based on the following: that it was a half time role, that the position should be based in La Réunion, and that the candidates would preferably be fluent in both English and French.

The post was advertised internationally including locally in La Reunion, France Metropole and all SIOFA countries. The advertisement was distributed early August 2017 through the following channels advising a closing date of 31 October 2017.

- SIOFA website
- All Non-tuna and tuna RFMO websites
- Vacancy note provided to each SIOFA CP HoD with request to advertise job vacancy nationally giving each CP the responsibility and freedom and to advertise as they feel appropriate.
- FAO

In total 13 applications were received and a shortlist of 4 candidates were selected for interview by the Executive Secretary and the Chairperson based on agreed key criteria.

The SIOFA Chairperson convened an interview panel including relevant expertise. The selection process comprised of two stages

1. Each candidate was sent by email a practical test and given a 48 hours deadline to complete. This test, and data base questions for the interview, were devised and assessed by the Data manager employed at Northwest Atlantic Fisheries Organisation (NAFO).
2. Interview was achieved through a combination of Skype and telephone, each candidate being interviewed under the same conditions.

Each candidate was asked the same set of questions within the same time frame. Each candidate was scored separately by each panelist. Two candidates scored very high in the overall assessment and from these two candidates Pierre PERIES was selected.

All recruitment documentation is archived at the Secretariat and available upon request.

**Future Staff Needs**

To ensure the Secretariat has the capacity to meet the additional tasks requested by the SC (SC3 Report) and required within MoP5 proposals, it is requested that MoP consider increasing the part-time Data/IT Manager post from 50% to 75% for 2019. As this request carries budget implications more details are provided in MoP5-Doc14 Rev1 Draft SIOFA 2019 Budget.

**SECRETARIATS ACTIVITIES**

This report provides a summary of the main activities of the Secretariat since the fourth ordinary Meeting of the Parties which was held in June 2017.

**Development of SIOFA Secretariat**

With the recruitment of a part-time Data/IT Manager, the Secretariat's capacity for the management of the collection of data necessary to accomplish the objectives of the Agreement and for the sharing of this data and information has increased. SIOFA secretariat is benefitting from the ongoing development of SIOFA databases, SIOFA website and meeting support.

SIOFA Headquarters Agreement has been ratified and entered into force 2nd August 2017.

**SIOFA Web site**

The website is being developed to provide necessary information's and basic functions of SIOFA including sharing and storing of meeting documents. Public and restricted access options are available for distribution and storing of documents. A 'username' and 'password' necessary to access restricted documents has been provided to all Official Contacts.

Prior to the recruitment of a Data/IT Manager, the SIOFA website was launched with the assistance of the IT staff of the North East Atlantic Fisheries Commission (NEAFC) based on the Drupal open source content management system. Now the recruitment of a Data/IT Manager has been achieved, the website is in a transitional period as it is transferred from the platform provided by NEAFC to a hosting selected by SIOFA. This is a necessary evolution to provide SIOFA with full control over its content and further development. The website will continue to be improved to better serve the needs and objectives of SIOFA.
**SIOFA Database Development**

Currently 3 databases are being developed at the SIOFA Secretariat:

1. **Datasets database.** This database keeps track of the datasets sent to the Secretariat. It is used to assess the quality of the datasets and to start the processing of the fisheries data.

2. **Vessel Catch and effort (tow-by-tow) database.** When the data manager took position, this database was already developed by a consultant and held fisheries data from EU and Australia. The structure of this database was simplified, and its content updated with historical and recent data from other CP datasets (Cook is., Japan, French Overseas Territories).

3. **Summary catches database.** This database holds lower definition fisheries data, it is also used when CP do not provide fine level (tow-by-tow) catch and effort data.

**Organisation of SIOFA Meetings**

Since MoP4 the Secretariat has organised, or is in the process of organising, the following SIOFA meetings since the MoP4.

<table>

**Proposed attendance at future meetings of other organisations between MoP5 and MoP6**

Subject to SIOFA Chairperson approval, meetings that the Executive Secretary may participate in during the following 12 months may include the following:

- COFI & Regional Fisheries Body Secretariats Network, Rome, 7-13 July 2018
- SWIOFC annual meeting, dates and location tbc
- ABNJ PSC4 meeting, location tbc

**SIOFA Circulares**

Circulars are used to issue requests and to distribute information to SIOFA Members. Since MoP4, 4 circulars have been produced and circulated to SIOFA Official Contacts covering the following subjects (date circulated):

- SIOFA Data/IT Manager – Advertisement of Job Vacancy (02 July 2017);
- SIOFA Data/IT Manager – Selection and Commencement of Post (18 Jan 2018);
- SEAFO 2018 IUU List (19 Jan 2018); and
- NPFC IUU List for 2017 (05 Feb 2018).

It is the intention to upload all circulars to a restricted area of SIOFA website as development of the website continues.
